SUTRA

SUTRA

Sustainable Transport in adriatic coastal areas and hinterland

SUTRA is promoting passenger multimodality in the Programme Area through the joint design of sustainable urban mobility concepts and new crossborder links by implementing actions aimed at enhancing the use of alternative means of transport that better connects the coast with its hinterland.

SUTRA

Sustainable Transport in Adriatic Coastal Areas and Hinterland

Start of project implementation:	1. 1. 2019.
Completion of project implementation:	30. 6. 2022.
Total budget:	2.897.500,00 EUR

SUTRA

SUTRA contributes to improve the quality and environmental sustainability of coastal transport services, helps reducing CO2 emissions and helps improving air quality of urban centres.

The main outputs of SUTRA:

1. 10 new, eco-friendly multimodal transport services for passengers,
2. 1 new maritime link between Italy and Croatia (relation Caorle – Poreč),
3. 1 jointly developed Crossborder Manual for smart design and integration of soft mobility solutions in coastal areas.

The main outputs will provide benefits to tourists, residents of coastal areas and the hinterland, local and regional public administrations and Small and Mid-size Enterprise.
